JUNIORS WILL CELEBRATE THE FOURTH OF JULY.

Arrangements Being Made for the Second Annual Outing at Carolina Beach. Features of Entertainment.

The Fourth of July this year at Carolina Beach will be made notable by Jeff Davis Council, Junior Order of United American Mechanics, which will enjoy its second annual outing there on that day. There will be five trips of the steamer during the day and night and the Juniors propose to make each one of the trips an "old time family excursion" of the kind that have been popular for years.

At the beach there will be all kinds of amusements and it will be worth one's while to spend the day on the outing whether members of the order or not. At the last meeting of the Council the following committee was named to take charge of all the arrangements; viz: Messrs. John E. Wood, Wm. Tienken, E. B. Burkheimer, C. W. Craig, H. T. Craig, J. A. Jordan and G. C. Simmons.

Among the amusements will be a baseball game between picked nines, sack races, bath races, and other athletic sports. The fare for this round trip will be 25 cents.

PLANT SYSTEM OFFICIALS HERE.

Several Arrived Last Night from Savannah and Mr. Craig from Augusta.

Messrs. H. C. Prince, Wilbur McKoy, J. Moultrie Lee and R. S. McIver, of the Plant System at Savannah, arrived on the Southern train last night and are guests at The Orton. Mr. Prince is Controller of the Plant System with headquarters at Savannah, but is slated after July 1st for controller of the consolidated system with headquarters at Wilmington. It is presumed that his visit here now is in connection with the transfer.

Another arrival last night was Mr. W. J. Craig, of Augusta, passenger agent of the Charleston and Western Carolina, who is also said to be slated for a prominent position in the consolidation.

LOCAL DOTS.

— Grace M. E. Sunday school will have its annual excursion to Carolina Beach to-morrow.

— The Second Regiment Band will have its regular rehearsal at the armory to-night at 8:30 o'clock.

— A cart, infant's white enamel led iron crib and go-cart is offered for sale in the business local column of today's STAR.

— The STAR is requested to state that there will be conveyances at Rocky Point Friday morning to take delegates to the Baptist Union meeting at Riley's Creek.

— German carp continued to bite at the river docks yesterday and large numbers of anglers, mostly colored, continued to throng the wharves.

— Schooners *Harvest and Hinckman* and *Wm. B. Herrick*, from Norfolk, and *Rebecca A. Taulane*, from Boston, arrived yesterday for timber and lumber cargoes.

— The meeting which begun at Southside Baptist church last week is being continued this week with increased attendance and interest. The public is cordially invited.

— A number of the colored excursionists from Atlanta chartered the steamer *Compton* Sunday and went for a trip to sea. They appeared to have enjoyed the day very much.

— On and after July 1st the law regulating dog, dray, truck, cart and wagon badges will be strictly enforced by Chief of Police Furlong. See important notice in another column.

— Most of the larceny cases in the police court yesterday were continued for further testimony. Wm. Howe and Wm. Weston, both colored, were each fined $5 for an affray at Seventh and Chesnut streets.

— The Democratic County Convention of Brunswick for the nomination of State and Congressional delegates will be held at Lockwood's Folly Thursday. The convention for the nomination of county officers will be held later.

— The "True Reformers," a colored secret order, went on an excursion to Carolina Beach on the steamer *Wilmington* yesterday. There were 800 in the crowd. Many of them were Atlanta negroes who came on the excursion Saturday.

— Florence *Times* 23rd: "General Manager J. R. Kenly, of the Atlantic Coast Line, was here last night on his way to Charleston. He was joined here by Capt. G. G. Lynch, the assistant superintendent of transportation."

Negro Boy Drowned.

While bathing with a number of associates about his own age at the foot of Ann street Sunday afternoon at 2 o'clock, Oscar Brown, colored, six years old, got too far out in the stream and was drowned before help could reach him. Unsuccessful efforts were made Sunday and yesterday to recover his body.

[*Special Star Telegram.*]

CHARLOTTE, N. C., June 23.—Charlotte took to-day's game from Wilmington by batting Sweeney at opportune times and on errors by the visitors in the field. The men appeared to have an off day, for they fumbled and failed to hold balls when misses meant runs. In the first inning Brandt was touched up for four hits and the grand stand began to get frightened when two runs were marked up for Wilmington.

The fears, however, were soon dissipated when the Charlotte men made five in the last half. The joke of the game was that Armstrong stole 20 bases. About 500 people saw the game.

That Fifteen to Three Is a Plenty for Me.

— "Don't give up the ship."

— Krause's turn to-day: Karns' to-morrow.

— The best of pitchers get bumped sometimes.

— In only two innings did the Charlotte Hornets fail to score.

— An allowance of 14 hits and 7 errors was quite enough for the reconstructed.

— That's a lively race Newbern, Durham and Raleigh are having for second place.

— Dear Mr. Mace: Please hurry along those two new men. We need them to change our luck.

— Misther O' Ginnis was right there with three hits out of four times up; likewise with two errors.

— Don't forget the Bachelors and Benedicts this afternoon. The contest will be rich, rare and racy.

— The horse editor is now humming the following refrain:

That fifteen to three
Is a plenty for me.

— A letter received from Manager Mace yesterday stated that he had written for another pitcher and an outfielder.

— Thursday Durham comes for three games; then Wilmington goes to Newbern for three and Newbern comes here for three, one of which is on July 4th. An excursion will run from Newbern for the "Fourth."

— "Wallie" Warren telegraphed yesterday that $100 per month and transportation, which would amount to about $30, would land him. We like "Wallie," but with a $700 salary limit he comes a little too high for us.

At Wrightsville For the Summer.

Miss Mabel Powers, of Atlanta, arrived Sunday and went to the beach yesterday to have the family cottage put in order for the coming of her parents, Mr. and Mrs. E. J. Powers, next Saturday. Beginning July 1st Miss Powers will entertain a large number of her Atlanta friends at a house party.

Trip to the Pier.

The steamer *Wilmington* to-night will make an extra trip to the pier and return, leaving the city at 7:45 o'clock. The occasion is an excursion by Market Street Methodist Sunday school and with favorable weather the trip will be a delightful one. The fare is only 15 cents.

Y. M. C. A. STAR COURSE FOR THE COMING SEASON.

Mr. H. E. Bonitz Chosen Manager and a List of Desirable Attractions Secured--Subscription Now Open.

A committee from the Board of Directors of the Y. M. C. A. met last week in the office of the Secretary in the Association building and partially completed the arrangements for the Star Course of entertainments next season. The committee had an abundance of material to select from and members say the course this year bids fair to break all record of excellence. Mr. H. E. Bonitz has been placed in charge of the course and his tireless energy and superior judgment will go a great way toward ensuring success.

The following numbers will probably be secured:

Lovett's Boston Stars.
Ridgeway Concert Company.
Mozart Symphony Club.
Dr. A. A. Willits.
S. M. Spedon, a caricaturist.
Amphion Male Quartette.
Thos. Dixon, Jr., and either the "Dunbar Hand Bell Ringers" or the original "Quaker Male Quartette."

Tickets will be the same as last year —$2 for non-members and $1 for members, with 10 cents additional for reserved seats.

The Mozart Symphony Club is well remembered from last season and is said to be the best combination of instrumental musicians now on the road. The "Quaker Male Quartette" is also said to be another strong number and will appeal especially to the musically inclined. The Katherine Ridgeway Concert Company headed by Miss Ridgeway, is another attraction, which comes well recommended and Lovett's Boston Stars are too well known here to need introduction. The Amphion Male Quartette is a concert company composed of the finest church soloists in and around New York and is sure to please. The lecture by Tom Dixon, Jr., author of "Leopards Spots" will no doubt fill the auditorium early.

The subscription list of the Star Course is now open and tickets may be secured at any time. Any one desiring further information may receive the same from Mr. H. E. Bonitz, manager of the Course.

SHORTAGE COMING IN COAL SUPPLY.

Seacoast Railroad is Feeling the Baneful Effect of the Strike.

As the result of the strike in the coal region, the black article of fuel is now very scarce and is commanding high prices. A good article of coal is simply out of the question at any figure and several local concerns are the sufferers. The Consolidated Railways, Light and Power Co. is the first to feel the effect of the shortage to any considerable extent. The company is now able to get only "coal dust" or "sweepings," and with that class of fuel the operation of the Seacoast road strictly upon schedule is almost out of question.

The best coal supply to be had now is a very poor steam generator and this, combined with the rush of the work in getting the road in order for the trolley cars, makes it very unsatisfactory for the company in the operation of its trains. The defect the company hopes to remedy at the earliest possible moment.

Playing Havoc with Cotton Plant.

At the Produce Exchange yesterday cotton men were interested in an exhibit of the terrible destruction being wrought upon the cotton plant in Robeson county by the pest commonly known as "lice." The stalk on display was taken from a field in Robeson yesterday morning and brought to the city at noon. The top of the plant was literally covered with the insects and the gentleman who brought it to the city says there is much complaint of the pest in the section which he visited. The presence of the insects is due to the cool days and nights which the weather man has been giving us lately. In other respects the cotton crop is reported very fine.

The Excursion to Norfolk.

The A. C. L. excursion to Norfolk yesterday was in charge of Capt. Harvey C. Twining and the train left at 6.45 A. M. One hundred and seventy tickets were sold here, but other passengers were taken on at stations up the road as far as Magnolia. One hundred of those who left Wilmington were white. Of the seventy colored people about 50 are on their way to New York where they expect to get employment as domestic servants. The excursion will return from Norfolk to-morrow.

Hussey-Newbury.

Friends in Wilmington have received handsomely engraved invitations bearing the following announcement: "Dr. and Mrs. L. Hussey request the pleasure of your company at the marriage of their daughter, Carrie, to Dr. James Henry Newbury on the evening of Wednesday, July 2nd, at 6:30 o'clock, Baptist church, Warsaw, North Carolina." Dr. and Mrs. Newbury will be at home after July 15th.

Oxford Seminary for Girls.

We invite the attention of our readers to the advertisement of this old and progressive and thorough school found in another column. President Hobgood is giving his pupils the benefit of thirty-two years' experience in conducting colleges for girls. The location is ideal, the advantages first-class and the charges very moderate. The catalogue, profusely illustrated, is one of the handsomest of the season.

POSSIBLE CHANGES.

Plant System Officials and Employes Are on the Anxious Seat.

EFFECT OF CONSOLIDATION.

There Are Many Rumors in Savannah, According to the Morning News. Official Circulars Are Expected This Week.

In speaking of the various changes that are likely to be made with the going into effect of the consolidation of the Atlantic Coast Line and Plant System, the Savannah *Morning News* of Sunday says:

"The situation will be cleared for Plant System officials this week. The uncertainty under which most of them have labored for some weeks, in fact ever since the announcement of the acquisition of the Plant System by the Atlantic Coast Line, will be relieved. This is the view they take of it, and they are eagerly awaiting the official announcement that they expect will be made very soon by circular.

"This circular, said a Plant System official yesterday, 'will probably be issued from Wilmington, and will be dated as of July 1. We look for it, however, a little sooner than July 1. It may make it appearance here this week.'

"In the meantime, however, information that they will be retained in the service has been reaching some of the officials. Comptroller H. C. Prince, of the Plant System, will be made comptroller of the consolidated system. This will mean the transfer of Mr. Prince's headquarters from Savannah to Wilmington, the general headquarters of the Coast Line. Mr. Prince has many friends here. He has been comptroller of the Plant System since Mr. Morel, having come originally from the Louisville and Nashville. He is an experienced and capable railroad man.

"General Superintendent W. B. Denham, of the Plant System, will be a general superintendent of the Atlantic Coast Line, which will be formed into two divisions. The exact line of division is not yet known but it is not improbable that it will be Charleston. The Plant System will constitute the Southern division, and the Atlantic Coast Line as it now exists, will be the Northern division. Though they will exercise supervision over divisions, the authority of the general superintendents will be much greater than that of division superintendents, being, in fact, as great as it is in the present operation of the two properties.

"Mr. J. F. Divine, general superintendent of the lines of the Atlantic Coast Line south of Weldon, N. C., will probably retire upon the consolidation, possibly being made a vice president of the company. Mr. Divine is a veteran in the service of the Coast Line and a stockholder. The authority of Mr. E. T. D. Myers, superintendent of the lines north of Weldon, will, it is thought, be extended as far south as Charleston. He and Mr. Denham, in that event, will be the two general superintendents, reporting to General Manager J. R. Kenly.

"General Freight Agent James Menzies will be general freight agent under the new regime. The *Morning News* published a report that Col. B. W. Wrenn, passenger traffic manager of the Plant System, would leave the service and that General Freight and Passenger Agent A. J. Craig, of the Charleston and Western Carolina, would take charge of the passenger department here. This report is still persistent. It is almost positively declared to be the way the event will show.

"Mr. Craig is now with a road that is owned by the Atlantic Coast Line. While it is the avowed policy of the Coast Line not to displace any officials of the Plant System that it could retain, it is held that Col. Wrenn was not inclined to accept what was offered him. This meant that an opening would be presented, so it is maintained that Mr. Craig will come to Savannah to be general passenger agent. The report is given credence among Plant System officials, who say, however, that they do not know officially that it is true. That, in fact, is their position upon all the places except those of Mr. Prince and Mr. Menzies.

"Trackage rights of the Southern Railway from Hardeeville to Jacksonville will be effective on and after July 1st. This will mean a changed condition in the railroad situation. The Coast Line and the Southern Railway will be warm competitors for through business. Under the present contract between the Plant System and the Southern, the Southern's trains are handled by the Plant System south of Savannah and the Plant System gets the revenues. Under the new contract the Southern will run its own trains from Hardeeville to Jacksonville, paying for the right. While the Southern will do neither local freight nor local passenger business between Hardeeville and Jacksonville, there will be plenty of thorough business over which it and the Coast Line can fight."

Those outside of official circles here, who profess to know, say that Capt. N. N. Royall, now with the Coast Line at Charleston, will be one of the general superintendents.

The Savannah *News* of yesterday says the shops of the Plant System in that city will not be removed.

The Atlantic Coast Line has no shops at Charleston. Its southernmost shops are at Florence. The distance from this portion of the system to Florence would be too great to admit of the removal of the shops from Savannah, so it is assert that they will remain there. Shops are located at several points on the Plant System, the most important being at Savannah, Waycross and High Springs.

Parker, the Furniture Man.

As is his usual custom Mr. N. F. Parker, the furniture man, will leave July 15th for the Furniture Exposition to study the new styles in home decoration. To make room for the many new and novel things he will bring back with him, Mr. Parker offers to sell high-grade articles in his present stock regardless of cost.

Brooklyn Excursion To-day.

From present indications a large crowd will patronize the Brooklyn Baptist Sunday school excursion to Carolina Beach to-day. There will be three trips of the splendid steamer *Wilmington* and all are assured a delightful time.

CHARLES BEATTY MALLETT.

Former Resident of Wilmington and Native of Fayetteville Died Sunday at Salisbury--Has Relatives Here.

Information reached the city yesterday of the sudden death at his home in Salisbury Sunday morning at 10:30 o'clock of Mr. Charles Beatty Mallett, a native of Fayetteville and once a resident of Wilmington. His death was the result of a stroke of apoplexy.

Mr. Mallett had made his home the past two years with Mr. H. J. Overman, his nephew, and jointly the two conducted a brick yard near Salisbury. Mrs. Overman and children were visiting in Fayetteville at the time and Mr. Overman and Mr. Mallett occupied the house alone. About 8:30 o'clock a servant woke Mr. Overman and told him she had heard distressed breathing in Mr. Mallett's room upstairs. Mr. Overman upon going to the room, found Mr. Mallett unconscious upon the floor. He had fallen with his head on the hearth and there was an abrasion where his cheek bone struck. The stricken man died within two hours without regaining consciousness, although physicians were hastily summoned. Mr. Mallett had never exhibited signs of apoplexy and was apparently in the best of health. Immediately preceding the stroke from which he died, he had risen, dressed himself and had busied himself about the house.

Deceased was 51 years of age and was never married. He was superintendent of the Cape Fear Club here at one time and was also a member of the Board of Aldermen. He was an uncle of Mrs. R. Lee Holmes and a cousin of Mrs. Gabriel Holmes, both of Wilmington. He also leaves a brother, John W. Mallett, of Georgia, and three sisters, Misses Carrie, Maggie and Alice Mallett, of Fayetteville. The remains were taken yesterday to Fayetteville for interment.

BACHELOR-BENEDICTS TO-DAY.

Game That Will Be Intensely Interesting. Bulletins from Charlotte Game.

Fun and lots of it with enough good ball playing between times to make the combination palatable is what the Bachelors and Benedicts promise in this afternoon's game at the park for the benefit of the League uniform fund. The Bachelors have been at work persistently to strengthen their team, and the sport of the first game, with the objectionable features "cut out," may be looked for. After a day with "the children" at the beach, the original line-up of the Benedicts found itself yesterday poorly recovered from the first day's contest, consequently new players had to be signed. The teams will line-up this afternoon as follows:

BENEDICTS.	BACHELORS.
French	Jackson
Taylor	Orrell
Steele	Brunson
McEachern	Hunt
Johnson	Bellamy
Robertson	James
McMillan	Battle
Sinclair	Baxter
Willard	Beery

The game will be called at 4 o'clock promptly. Rooting, except from the grand stand, is prohibited. Players are required to chew gum for an obvious reason. The Charlotte-Wilmington game will be bulletined by innings. As you watch the Bachelors and Benedicts, so can you keep posted on "what's doing" on the ball field at Charlotte.

MR. JAS. M. HALL, PHARMACIST.

Resigned Position at Hospital Yesterday to Engage in Business Himself.

Mr. James M. Hall, for the past three and a half years the competent and obliging interne and pharmacist at the City and James Walker Memorial hospitals, yesterday resigned his position at the latter institution and will engage in business for himself. He has purchased the drug store formerly conducted by W. H. Green & Co., at northeast corner of Fifth and Castle streets, and with a new and fresh stock of drugs, medicines, etc., he will be in splendid condition to cater to the best of trade.

Mr. Hall, besides being a regularly licensed pharmacist, has had abundant experience in his chosen profession and at once enjoys the confidence and esteem of the public. While at the hospital he filled all the prescriptions for county and city as well as for the patients of the institution and at his new store will make a specialty of prescription filling. He is a young man who deserves abundant success.

His place at the hospital has not yet been filled.

The Atlanta Excursion.

The Atlanta excursion train which arrived Saturday with white passengers, more than half the number of which will remain at the beach a while longer, left last night at 9:30 o'clock from Tenth and Market streets. There was more than two hours delay in getting up from the Beach over the Seacoast road on account of the short and very inferior coal supply. The train left the Beach at 8:30 P. M., and the city about an hour later. The section of the train carrying some four hundred colored excursionists left the city station of the S. A. L. at 6 o'clock.

Will Meet Thursday Night.

The Board of Aldermen did not meet last night to pass upon applications for liquor license as was expected. The postponement was in deference to Alderman Mann, who desired to be absent on the excursion to Norfolk.

— Mr. Emil F. Rohr, steward at The Orton for the past 18 months, has resigned his position on account of poor health and returned yesterday evening to Atlanta, his old home.

Colored Teams Played.

There was a lively game of baseball at Hilton park yesterday afternoon between colored teams from Wilmington and Atlanta, the aggregation from the latter city having arrived Saturday on the excursion. The result of the game was 11 to 9 in favor of the home team, or the "White Caps," as they chose to style themselves. The Atlanta club had things all its own way until the sixth inning, when the Wilmington team crossed the plate for eight runs. The home team was uniformed in fiery red, with tan shoes, and the effect was amusing. There were hits, errors, passed balls, muffs, balks, etc., galore, but the umpire managed to "stave off" the "scraps" until the eighth inning, when the Atlanta crowd got mad and had the game called before the score grew larger.

Death of a Child.

Richard A., the ten-months old son of Mr. and Mrs. Alex. Leslie, Jr., died Sunday morning of cholera infantum at the family home, Princess between Sixth and Seventh streets. The funeral was conducted at 11 A. M. yesterday by Rev. Dr. James Carmichael and the remains were laid to rest in Bellevue.

DIED.

LESLIE—RICHARD, infant son of Mr. and Mrs. Alex Leslie, Jr., at the home of its grandparents Mr. and Mrs. H. M. Brothers, 613 Princess street; age nine months.

SPECIAL NOTICE.

Withdrawal Insured Bills of Lading.

Beg to advise that, effective Monday, June 16th, 1902, and until further notice, the Clyde Line has cancelled its cargo policies and will only move property entirely uninsured by the steamers it may operate between New York, Wilmington, N. C., and Georgetown, S. C., and subject to the terms of the contract embodied in the Bill of Lading, which clearly relieves the carrier from marine risk, including fire and other casualty, while on land or water.

We give the merchants this early notice in order to enable them to make such arrangements of their own as they may deem proper, to protect themselves against any losses for which, under the terms of the contract as embodied in the Bill of Lading, the carrier is in no way responsible. All property being entirely uninsured while in the possession of the Clyde Line shippers must arrange for their own insurance; however, if they desire to effect insurance under the open policies held by the Clyde Line, and which insurance must be endorsed on the Bills of Lading, they can do so at rate of twenty cents per one hundred dollars valuation.

The Morning Star.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

TUESDAY MORNING, JUNE 24.

A RING RULED PARTY.

The Republican party always has been dominated in its public policies by special interests, a fact which was never more apparent than it is now. It may frame platforms filled with high sounding declarations of devotion to the interests of the people as a whole, and full of promises of just, economic administration, and of honest impartial legislation, but when it comes to carrying out these declarations, promises and pledges, the people stand no more show when confronted by corporations and the special interests to which we have referred than a flock of birds would in a tempest. We have had some striking illustrations in this Congress of the power of rings and combines in defeating measures favored by the people but opposed by the rings and combines.

In commenting upon the speech recently delivered at the Tilden Club reception in New York, in which he spoke of Democratic opportunity, the New York *Herald*, independent in politics, thus arraigns the Republican party as represented by the majority in this Congress: Quoting Mr. Cleveland's declaration, "I believe the times point to another democratic opportunity near at hand," it says:

In outlining the platform on which all Democrats should be able to get together, Mr. Cleveland indirectly arraigned the Republican party as sacrificing the rights and interests of the people by favoritism of legislation, by the encouragement of trusts that throttle individual enterprise, by reckless waste of public money and "by the greatest of all injuries, as it underlies nearly all others, a system of tariff taxation whose robbing exactions are far beyond the needs of economical and legitimate government expenditure, which purchases support by appeals to sordidness and which continually corrupts the public conscience."

These words are emphasized and illuminated by the daily demonstration that our Republican Congress is dominated by railway cliques and the greedy interests that batten on the people under the present protective tariff. The creatures now defy their creator, scoff at the wishes of the people, trample upon considerations of national honor and contemn the pleadings and appeals of their own party's President and administration. Rather than endanger by a hair's breadth the favors enjoyed by "protected" interests the measure granting pitifully inadequate relief to Cuba is "hung up" in the Senate Committee and defeated.

At the behest of the railway interests the people's desire for the Nicaragua canal is thwarted by the Senate, which "turns down" the Hepburn bill and yesterday passed that favoring the scandal tainted Panama scheme, thus creating a deadlock which will doubtless prevent any canal legislation being effected. Our Washington dispatches this morning show that Senator Morgan and other friends of Nicaragua are willing to accept the detested Panama job rather than have no isthmian canal at all; but note the statement of Senator Harris, an important member of the Canal Committee. He says:

"I fear the influences which were powerful enough to bring about to-day's result in the Senate will be powerful enough to prevent the construction of any canal."

The people, Republicans as well as Democrats, are outraged and disgusted by the continuous exhibition of triumphant greed dominating the ruling party. In the national platform of 1896 it was declared that "protection and reciprocity are twin measures of Republican policy, and go hand in hand." The increased protective duties of the existing tariff were thereafter imposed on the plea that they were to be lowered by reciprocity treaties, and distinct provision for these was made part of the law. It was a successful trick. The higher duties keep out foreign goods and permit the industrial combinations to levy the additional tax on American consumers, while the reciprocity treaties are buried under dust in the Senate pigeon holes.

In short, the beneficiaries of this system of public taxation for private gain now constitute an *imperium in imperio*—a ruling party within the party, and so arrogant and conscienceless in its greed that patriotic and intelligent Republicans are shocked and revolted. The Democratic opportunity of which Mr. Cleveland speaks is indeed at hand if his counsel to the dissentient elements is heeded.

The *Herald* believes, as a great many others do, that the substitution of the Panama for the Nicaragua canal route simply a dodge to defeat any canal. Senator Harris fears, as quoted in this article, that the power which was strong enough to defeat the Nicaragua canal bill after the long fight for it and the universal endorsement it had received, will be strong enough to prevent the building of any canal by this Government. It is a well known fact that ever since an Isthmus canal has been engaging the attention of Congress the trans-continental railways have been represented in Washington by a powerful lobby, which industriously co-operated with the agents of these roads who hold seats in both Houses of Congress. If it had not been for the effective work of this lobby and these agents the Nicaragua bill would have been passed two years ago or more and the work of construction would be well under way now. Senator Morgan bluntly charged these railroads with keeping a lobby in Washington to oppose the Nicaragua bill, and he knew what he was talking about. They favored the Panama route simply to get rid of the Nicaragua scheme, but if there be any indication of a successful conclusion of negotiations for the Panama route, they will find a way to obstruct and defeat that, as they did to defeat the Nicaragua bill.

The owners and operators of these roads have too many millions invested and their volume of business is so large, they have too much at stake to permit, if they can prevent it, the construction of a canal by any route which would prove such a formidable competitor. It is a matter of business with them.

And so it is a matter of business with the beet sugar men in opposing and defeating reciprocity with Cuba, after the universal popular endorsement it has received and the urgent recommendations by leading Republicans and leading business men, who spoke as business men and not as politicians. In spite of all that, all the professions of interest in and friendship for Cuba; in spite of the recommendations of the late President McKinley, who had virtually pledged this Government to reciprocity in return for the adoption of the Platt amendment by the Cuban constitutional convention; in spite of the recommendations of President Roosevelt and his appeals for fair play and justice to Cuba, a handful of men representing a comparatively insignificant industry, with a gross capital of only $20,000,000, employing less than 2,000 men, paying in wages only a little over $1,000,000, for materials less than $5,000,000, the total value of whose output is only a little over $7,000,000, stands in the way, dictates to Congress, defies the President, and defeats a measure to which the party is as fully committed as a party ever was to anything.

Mr. Oxnard, as the representative of the beet sugar interests, is a greater power in Congress than the President of the United States. The President doesn't happen to be in the ring this time, and hence he and his recommendations and appeals are ignored and the ring triumphs, as the rings nearly always do with a Republican majority, when there are measures pending in which they are interested.

When rings dictate and Congressmen and Senators obey, what need the people expect? Where is the hope of reform or relief from oppressive burdens?

THE SIXTH WEEK.

Last week was the sixth week of the anthracite coal strike, and instead of being better the condition is worse, for the contending parties do not seem to be any nearer an agreement than they were in the beginning while the strike has extended to a number of the soft coal mines, which makes it still more serious.

It is estimated that, calculating for the anthracite strikers alone, the loss in wages amounts to about $1,000,000 a week, so that they have already lost $6,000,000 in wages, not counting what the strikers in the other mines have lost. We do not suppose the mine operators have lost anything yet for the advance in the price of coal has more than offset any losses they may have incurred from the strike.

But not so with the coal consumers. They have felt the pinch already and the longer the strike is protracted and the more mines involved the more they will feel it. They have already had to pay a heavy increase in the cost of coal, amounting in the aggregate to millions of dollars, while numerous industries have been hampered for fuel and been compelled, after paying the advanced prices, to use wood when they could get it in place of coal. The scarcity of fuel has necessitated shorter hours, or temporary suspension of mills and factories, thus stopping work for many people and of course stopping pay.

In the long run it is the public that suffers from strikes of this kind, and yet there seems to be no way to protect the public. But there should be and there can be, especially in the case of strikes which directly affect the necessaries of life, such as fuel and food. The recent strike by the teamsters of the Chicago packers ran meats so high that they went practically beyond the reach of the ordinary wage earner, and now coal is both extraordinarily high and extraordinarily scarce. Fortunately it is at a season when the consumption is comparatively small, and therefore, while it imposes a heavy tax on the consumers, there is not the suffering there would be if the strike were in the Fall or Winter.

Such strikes are generally settled in the end by arbitration and compromise, after millions have been lost and the public has paid millions in various ways as a result of the strikes. But the arbitration should come in the beginning, before the harm is done and the loss inflicted. It is just as easy to do it in the beginning as later on, if the right way be pursued. Intead of getting up impromptu boards of arbitration, such boards should be established by law in every State, where there is occasion for anything of the kind, and these boards should have positive, not merely honorary powers. What they say should go, just as a decree of the court goes, and if the parties to the dispute refused to abide by their decision then they should be empowered, in the name of the people and for the protection and in the interest of the people, to take temporary possession of those properties and keep them running to the end that the people might not suffer. This could be done and "the public welfare" demands that it should be done.

LOOKING TO THE SOUTH.

That is an interesting dispatch we published Sunday morning from the Chicago *Inter-Ocean*, stating that arrangements had been effected by the beef packers by which they had secured control of several hundred thousand acres of land in Northern and Western Florida and Southern Alabama where they propose to go into the cultivation of the cassava root on an extensive scale, to feed cattle and hogs. It is said that if the plan is carried out as contemplated it will make the South "the center of the cattle-raising industry."

The cassava root is said to be a splendid stock feed, while the yield is very large. In the section where this experiment is to be made, the grasses, pease, corn and other forage crops grow well, and there is more or less pasturage the year around, while there are no blizzards or severe weather, nor excessive heat from which cattle might suffer as they frequently do on the ranges in the West and Southwest.

With the capital the beef packers can invest in this enterprise without feeling it, and the system they can establish, and the necessity for making provision for future supplies of animals for slaughter, we have no doubt of the complete success of this venture, and this means much for the South, for it will demonstrate the practicability of raising cattle in the South on a large scale and profitably, and will encourage others to engage in it.

We have frequently asserted in these columns that the South could and probably would become the center of the cattle raising industry of this country. We may not see that assertion verified, but others will. This movement by the Chicago packers is a long stride in that direction.

The friends of the Georgia school of technology in Atlanta have subscribed $10,000, in response to the offer of the New York Educational Board to subscribe that much provided it was duplicated by other subscriptions. The bulk of those subscriptions come from friends in Atlanta who take interest in the school.

The best move those silk mills at Paterson, N. J., could make, would be to move South and leave their anarchistic employes behind.

CURRENT COMMENT.

—— Russia is becoming one of the greatest purchasers of American agricultural and industrial goods, finding them, it is said, not only cheaper, but better in every way. Russia knows a good thing when it sees it and is bent upon progressing. The future of the Slav may yet be a glorious one.—*Augusta Chronicle, Dem.*

—— The Pennsylvania Republican State Convention "points with pride" to the anti-trust law "devised by John Sherman and passed by the Republican party." That is also the attitude of the Administration and of the Republican leaders generally, we believe. They point with pride to the law and stop at that.—*Charleston News and Courier, Dem.*

—— The greatest ship built in America—the steamer Korea, of the Pacific Mail Line—has just made her trip from Newport News to San Francisco, and will there enter upon her service of transportation to the Far East. Strange to say, this magnificent American ship has been built without waiting for the passage of the Frye-Hanna Subsidy bill, and probably with little or no expectation of its enactment.—*Philadelphia Record, Dem.*

—— The sugar beet has been nourished into strength by Republican protection, and it turns in fine shape to demand as a right what it begged five years ago as a favor. So the American people is now ruled by the "infant industries" that still plead poverty while striking with a club—a living reminder that the Hercules who conquered from a cradle was not necessarily impossible because we know him only as a myth.—*Jacksonville Times-Union, Dem.*

— Newbern *Journal*: The sums of money paid out each week in this immediate vicinity to colored hands on the truck farms amount to considerable. The large truckers have a regular force of hands, but often these are not enough to do the business. An instance here last week was one of the large truck farms having to pay about $400 for extra help besides their regular hands.

—Charlotte *Observer*: The amount of gold shipped from the United States assay office in this city for the past fiscal year, ending with the month of June, amounted to $266,097.75. This exceeds by $44,640.24 the amount shipped during the year ending in June, 1901. All the gold shipped from the assay office here goes to the mint at Philadelphia, Pa., where it is coined. The gold which passes through the United States assay office here comes from the following named States: Virginia, Maryland, North Carolina, South Carolina, Tennessee, Georgia and Alabama. About one-fourth of the gold produced in these States is taken from copper matte, which is shipped to the North by the car load to be smelted in the large Northern smelters. None of this gold is received at the office in Charlotte.

— Raleigh *News and Observer*: Friday the creosote plant at Fuquay Springs began operations. It is one of the best equipped in the country. Four retorts are used and the products are creosotes, tar and turpentine, the operations being performed as in a still, chuncks and roots of lightwood being used. The promoters of this enterprise look for great things from it and the outlook is most encouraging. ——The analysis made of the condition of the stomach of the negro Horace Haywood, of Garner, who died shortly after eating a meal, shows that ground glass and paris green were present. This analysis was made at Chapel Hill, and a report has been made to Dr. T. M. Jordan, the coroner, and the statement is that this caused the negro's death. There is no clue as to the perpetrator of the deed. Haywood's daughter cooked the food, but no motive has been found to implicate her. The jury will not be reconvened and the officers of the law will seek to discover the poisoner.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 23.—The cotton market opened firm, with prices three to seven points higher on eager demand from shorts and some foreign buying, based upon a strong showing by the Liverpool market and upon dry weather news from Texas. Not long after the call the whole list further improved on general buying and scarcity of offerings. The August position led the second rise, working up to 8.30. Then came a reaction of five to six points under selling for profits by room traders and a slight setback in the English markets. Excellent weather and crop reports from the crop belts outside of Texas did much to encourage bear selling on the turn. However, Europe continued to buy here and the more conservative shorts refused to risk possible bad crop news from Texas in to-morrow's weekly government report. The June position displayed pronounced strength, at one time being quite fifteen points over the final bid of last Saturday. Early in the afternoon the market exhibited a disposition to do better and though Wall street interests persistently sold the August option, prices crept steadily toward the higher level of the first hour. The market was finally steady and net seven to fourteen points higher. Total sales were estimated at 75,000 bales. Reports from Southern spot markets gave no indication of werkness and cloth market accounts reflected a firm attitude on the part of manufacturers. Receipts were rather larger than the average of late.

NEW YORK, June 23.—Cotton quiet at 9¼c; net receipts 60 bales; gross receipts 4,000 bales; stock 157,489 bales.

CHICAGO, June 23.—Grains continued to be squeezed to the good profit of the bulls. On the fickle weather, market bears were induced to sell until the markets were oversold. Early weakness, however, especially in wheat, was dispelled by the very bullish argument of greatly decreased stocks, and everything on the board advanced with a rush. At the close July wheat was ¢c higher, July corn 1¼c higher, and July oats ¢c up. Provisions closed 1½c to 35c higher at record making prices.

The blue birds are with us again. The streams and ponds are warming up. The fishermen should be looking up their outfits. Seeing if anything is wanted before the last minute.

As of old we are showing the finest things to tempt the fish kingdom and make the sport more sporty for the anglers.

Lines may be wanted; poles must be needed; hooks are very necessary, and in fact we have everything that is required to make a complete outfit.

To those that are interested in the sport, to those others that may not be so enthusiastic, we would consider it a favor to have all come in and look.

DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairmen of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person, or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and any Democratic newspapers that may be published in said county, requesting all Democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

PRIMARIES.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates for office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of thirteen Democratic votes cast by the township at the last preceding gubernatorial election. Provided, that every voting precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairmen of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

COUNTY AND DISTRICT CONVENTIONS

1. The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties; and none but delegates or alternates so elected shall be entitled to a seat in said conventions: Provided, further, That in all county conventions in which delegates shall be selected to attend any State, congressional, judicial or other convention, a vote shall be taken in accordance with the plan of organization as to the candidates whose names may be presented to such county convention. The delegates shall be selected from the friends and supporters of each candidate voted for, in proportion to the number of votes he shall receive in such county convention and no other instruction shall be given: Provided further, That when only one candidate is presented and voted for at each county convention it shall be lawful to instruct for such candidate.

2. At every county convention (before delegates to State, congressional, judicial, senatorial or other conventions are chosen) there shall be a vote taken for the different candidates for office whose names may be presented and the delegates shall vote their respective counties in accordance with this vote, that is to say each candidate shall receive in the State, congressional, judicial, senatorial or other convention the proportion of the vote to which the county may be entitled which he received in the county convention. The chairman and secretary of the county convention shall certify to each convention the vote received by each candidate given: Provided, That where only one candidate is presented it shall be lawful to instruct for him. At all State and district conventions the delegates from the different counties may disregard the vote of their respective counties as to any candidate: Provided, That a two-thirds majority of all his votes from the county consent.

3. The chairman, or in his absence any member of the county, senatorial, judicial and congressional convention shall call to order their respective conventions and hold chairmanship thereof until the convention shall elect its chairman.

4. The executive committees of the senatorial, congressional and judicial districts, respectively, shall, at the call of their respective chairmen, meet at some time and place in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of the said appointment and the said county executive committee shall forthwith call conventions of their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention: Provided, That every county shall have at least one vote in the convention.

Resolution passed at meeting of executive committee, November 30, 1897:

"*Resolved*, That in accordance with the resolution hereinbefore adopted, all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina are cordially invited to participate in all our primaries and conventions."

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any Democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such votes until the final result of the ballot shall be announced by the chairman of said convention.

4. All Democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairmen of the different county conventions shall certify the list of delegates and alternates of the different district and State conventions, and a certified list of said delegates and alternates to the secretary of the State central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the State committee as he may desire.

Chairman State Democratic Executive Committee.

The Teachey's Brick and Tile Company, Teachey's, Duplin county, was chartered with $2,000 capital.

WEST VIRGINIA COAL FIELDS.

Strikers on the March—Threaten to Resort to More Strenuous Methods. Militia Not Needed Yet.

By Telegraph to the Morning Star.

ROANOKE, Va., June 23.—A special from North Ford, W. Va., says: It is very difficult to forecast the developments of the ensuing week in the battle between the miners and operators. Returns from the field to-night are anxiously awaited by both sides. The strikers claim that this will be for them the banner day of the strike, while the mine owners state that they will at least hold their own. Most of the strike leaders are still advising peaceable methods, but the strikers freely assert that if persuasion will not accomplish their purpose of closing the mines, they will resort to a more strenuous method, as they propose to stop at nothing to win the strike. A fresh egress of miners from the field began Saturday night and many have left since that time.

Three car loads of striking miners arrived here to-day from the coal fields. They stated that there are 1,500 strikers on the march and that there are a great many leaving the fields. The reason that many who were in sympathy with the strikers had remained so long was in order to get their pay, and that as soon as they got all due them were leaving. No violence is being committed by the strikers but they are urging all men to stop work.

The following notice, signed "United Mine Workers of America," has been freely and conspicuously posted all through the fields: "Take notice! You are hereby notified to cease work on and after Saturday, June 21st, or abide by the penalty."

The sheriffs have not yet seen fit to call for outside help and there are now no indications that the presence of the militia will be needed.

KING EDWARD'S CORONATION.

The Festival in London Began Yesterday and Will End Saturday.

By Cable to the Morning Star.

LONDON, June 23.—King Edward and Queen Alexandra arrived in London from Windsor to-day. His majesty appeared to be in his usual health. With the return of the court to London from Windsor the festival of the coronation of King Edward may be said to have commenced and each day until midnight Saturday, when the last gun of the royal salute will be fired by the fleet at Spithead, will furnish the quota of the attractions which promise to make the week memorable. From to-day the special ambassadors, envoys and princes invited to join in the festivities become the guests of the king. Throughout the day numbers of royal personages have been arriving from the continent. They were met at the railroad stations by royal carriages and guards of honor and were escorted to the official residences assigned to them. Consequently, plenty of entertainment was provided for the crowd of sight-seers filling the streets.

A COMPARISON OF CRUELTIES.

During the Civil War in the South and in the Philippine Islands.

DISCUSSION IN THE HOUSE.

Grosvenor Read Report from Gen. Grant Telling of Arrangements He Had Made to Carry Desolation Through the Shenandoah Valley.

By Telegraph to the Morning Star.

WASHINGTON, June 23.—Debate upon the Philippine civil government bill warmed up in the House to-day and henceforth promises to be of a much livelier character. The increased interest is due to the injection into the debate of a comparison of the cruelties charged to have been practiced in the Philippines with those which occurred during the civil war. The subject has been lightly touched upon once or twice before, but attracted little attention until Mr. Grosvenor, of Ohio, to-day revived the memory of the extremities to which Grant and Jackson were put during the civil war. This was followed late in the day by a speech from Mr. Mahon, of Pennsylvania, in which he paraded the horrors of Andersonville and Libby prisons. He predicted that in the coming elections the American people would stand by the Boys in Blue.

Mr. Grosvenor, in his speech, also defended the rules of the House against the criticism passed upon them and paid a high tribute to Speaker Henderson's impartiality. Mr. DeArmond, of Missouri, spoke at considerable length in opposition to the administration's Philippine policy. The other speakers to-day were Messrs. Olmsted of Pennsylvania, Williams of Illinois, Corliss of Michigan and W. W. Kitchin of North Carolina.

Mr. Kitchin opposed the Philippine bill and the Philippine policy of the administration.

Mr. DeArmond repudiated utterly the charge that the opposition to the present Philippine policy in criticising some of the acts of army officers in the Philippines was slandering and assailing the army. The Democratic party, he declared, was not opposed to expansion founded upon American principles. Expansion was one thing and colonial empire was another. The Democratic party was anxious to see the country expand as it was understood by the fathers. Expansion upon the American continent, north or south, he said, was the Democratic idea of expansion, not holding by subjugation 10,000,000 people, 7,000 miles beyond our border.

Mr. Grosvenor said that if everything that had been said of General Jacob Smith were true, if he had issued the order to make Samar a "howling wilderness," and to kill all over ten years of age, he could find its counterpart on both sides during the civil war. He then proceeded to read a report from General Grant to the government at Washington, telling of the arrangements he had made to carry desolation every where through the Shenandoah valley, to seize all men under fifty years of age as prisoners of war, destroy crops and make the valley a "barren waste."

"Before Phil Sheridan got through he made it a barren waste," said Mr. Grosvenor. He then read from "the letters of Stonewall Jackson," edited by his wife, a statement that Jackson believed that the black flag should be raised and no quarter given, as the best means of resisting invasion and saying that he had urged this policy upon Lee. He also read a telegram from Gen. Beauregard, urging the passage of a bill for the execution of prisoners. By this means, the telegram read: "England will be stirred to action."

"When that bill was introduced in the Confederate Congress," interrupted Mr. Bartlett, of Georgia, "had not Lincoln issued a proclamation to seize the citizens of the Valley of Virginia and try them by court martial and had they not been seized?"

"I do not know," replied Mr. Grosvenor.

"That is history," declared Mr. Bartlett.

"If that is true," responded Mr. Grosvenor, "it furnishes only another reason to excuse those of our soldiers who retaliated when the natives in the Philippines sneaked up and cowardly murdered their comrades."

Mr. Mahon, of Pennsylvania, speaking of the cruelties charged against some of our officers and men in the Philippines, declared that they were not to be compared with the barbarities of the civil war. He read from official reports tales of the horrors suffered by the Union prisoners at Andersonville."

"Do not the official figures show," interrupted Mr. Richardson, the Democratic leader, "that a greater percentage of Confederate prisoners died in Northern than Union prisoners in Southern prisons?"

"I have the official figures here," responded Mr. Mahon, "I will put them in the *Record*." He read an order to shoot the prisoners at Andersonville if the Union army got within seven miles of the prison.

"If the North was justly indignant over the atrocities at Andersonville," interrupted Mr. Neville, of Nebraska, "why should not the American people now be indignant over the brutalities in the Philippines? Why parade the civil war horrors as an excuse! (Democratic applause). If the administration was directly responsible for the atrocities alleged to have been committed in the Philippines, the Republican party should be swept out of power."

"While the Union prisoners were suffering at Andersonville," interposed Mr. Richardson, "did not the Confederate government have up a standing offer to exchange those prisoners, officer for officer and man for man? And was not that proposition rejected?"

"Yes. But the men in Andersonville were broken, emaciated, many of them maniacs. The North refused to exchange able-bodied men for men who could not perform military service," replied Mr. Mahon.

"I ask again," interrupted Mr. Richardson, "did not more Confederate prisoners die in Union prisons than Union prisoners in Southern prisons?"

"I deny it and will put the reports in the *Record*."

"It is true and I can prove it," asserted Mr. Richardson.

"You want the South to support the government in prosecuting the war in the Philippines," interposed Mr. Neville, "why do you now seek to besmirch the South?" (Democratic applause.)

"I do not desire to besmirch the South," responded Mr. Mahon. I only desire to show, as General Sherman declared, that 'war is hell.'"

At 5 o'clock the House took a recess until 8 o'clock.

At the night session Mr. Bartlett, of Georgia, replied to the remarks made at the afternoon session by Mr. Grosvenor and Mr. Mahon as to the treatment of Union soldiers detained in Confederate prisons. He read from a report made by Chas. A. Dana, assistant secretary of war, upon the conditions in the Southern prisons, saying that the condition of the Union prisoners in the South was no worse than that of the Confederate soldiers in the field. To prove his statement made in the afternoon that a greater percentage of Confederate soldiers died in Union prisons than did Union soldiers in Confederate prisons, he produced the figures from Secretary Stanton's report of July 16th, 1866, showing that of 220,000 Confederate prisoners in Union prisons 26,576, or over 12 per cent. died, against 22,576 or about nine per cent. of 270,000 Union prisoners died in Confederate prisons.

In the Senate.

A motion was entered formally in the Senate to-day by Senator Quay, of Pennsylvania, to discharge the Committee on Territories from further consideration of what is known as the omnibus territorial bill—a measure to admit as States the territories of Oklahoma, New Mexico and Arizona. Senator Quay spoke briefly but forcibly in support of his motion, maintaining that both political parties in national convention had pledged themselves to the admission to statehood of the territories. Senator Beveridge, of Indiana, chairman of the committee, said the measure had been put over until next session by the committee because it was believed there would not be time now to consider it properly. No action was taken on the motion.

During the greater part of the session the unfinished business, the bill ratifying a convention with the Choctaw and Chickasaw Indians, was under discussion. It was not disposed of.

THREE MEN KILLED.

Crushed by the Caving in of the Rifle Range at Seagirt, N. J.

By Telegraph to the Morning Star.

SEAGIRT, N. J., June 23.—The partially completed rifle range caved in to-day, catching three men who were trying to escape between the toppling front walls and the rear wall, crushing them to death instantly.

The men who were killed were Anson Hale, John B. Marsh and Jacob Schibley, residents of Manasquan, N. J. All three are married. Hale leaves a family of eight and Schibley two children.

Col. Olcott says the accident was caused by the men removing the braces too soon. The accident will not interfere with the holding of the inter-state contest in August and September.

BLOWN UP WITH DYNAMITE.

Man and Woman Killed in the House in Which They Were Sleeping.

By Telegraph to the Morning Star.

LA FOLLETTE, TENN., June 23.—A terrific explosion occurred early to-day at the railroad camp of William Park, four miles from here. Herd Lones and Martha Chapman were blown to pieces and the house in which they were sleeping was demolished. A baby also in the house was thrown quite a distance but was unhurt. Four cases of dynamite are reported missing from the contractors, and it is thought these were placed under the house by enemies of the pair. Officers are making an investigation.

CHINESE CRUISER BLOWN UP.

One Hundred and Fifty Officers and Men Killed or Drowned.

By Telegraph to the Morning Star.

LONDON, June 23.—A dispatch to the *Central News* from Shanghai says that the Chinese cruiser Kai-Chi was wrecked to-day by a terrific explosion while lying in the Yang Tse river. The Kai-Chi sank in thirty seconds and 150 officers and men on board were killed or drowned. Only two men on board the cruiser escaped death.

MR. BRYAN SCORES GROVER CLEVELAND

Non-Attendance at the Democratic Harmony Dinner in New York Explained.

ARRAIGNMENT IS SEVERE.

Cleveland's Administration Reviewed in Scathing Terms—Declared He Secured His Nomination by Secret Bargain With Financiers.

By Telegraph to the Morning Star.

LINCOLN, NEB., June 23.—The non-attendance of W. J. Bryan at the Democratic harmony dinner in New York city is pretty well explained by a statement given out by Mr. Bryan this evening, commenting on the dinner. At the outset Mr. Bryan says there is no such thing as Democratic harmony, where former President Cleveland is concerned. He says:

"The banquet given on the evening of June 19th by the Tilden Club of New York city, was advertised as a 'harmony meeting,' but it turned out to be what might have been expected of such a gathering, an ovation to the chief guest, former Democrat, Grover Cleveland. There can be no such thing as harmony between men like him and those who believe in Democratic principles, and he is frank enough to say so. He spent no time looking for 'middle ground,' on which to gather together discordant elements. He boldly called upon the members of the party to abandon their convictions and accept the construction which he placed upon Democratic principles. He even taunted the party with being a sort of prodigal son, and invited it to give up its diet of husks and return to its father's house.

"He spoke of his 'retirement from activity' and said: 'Perhaps there are those who would define my position as one of banishment instead of retirement. Against this I shall not enter a protest. It is sufficient for me, in either case that I have followed on the matters of difference within our party the teachings and counsel of the great Democrat, in whose name party peace and harmony are to-night invoked. No confession of party sin should, therefore, be expected of me. I have none to make; nor do I crave political absolution.'

"He not only boasted of his course, but put his brand upon those who sat at the meal with him. Having asserted that his Democratic faith compelled him to leave the party (or resulted in his banishment) he described the banqueters as sharing in that faith.

"He is not only defiant, but he insists that party success can be secured only by an open and avowed return to his ideas. Harmony is to be secured, not by the suppression of differences, but by the elimination of those who differ from him."

Mr. Bryan says he will print in his paper Mr. Cleveland's speech, "to show that the organizers don't want harmony, but control, and that their control means the abandonment of the party's position and a return to the policeis and practices of Mr. Cleveland's second administration."

He continues:

"He (Cleveland) secured his nomination in 1892 by a secret bargain with the financiers; his committee collected from the corporations and spent the largest campaign fund the party ever had; he filled his cabinet with corporation agents and placed railroad attorneys on the U. S. Court bench, to look after the interests of their former clients. He turned the treasury over to a Wall street syndicate, and the financial member of his official family went from Washington to become the private attorney of the man, who forced (?) the treasury department to sell him government bonds at 105 and then resold them at 117. He tried to prevent the adoption of the income tax provision, refused to sign the only tariff reform measure passed since the war, and while thundering against the trusts in his messages, did even less than Knox has done to interfere with their high-handed methods.

"His administration, instead of being a fountain of Democracy, sending forth pure and refreshing streams, became a stagnant pool from whose waters foul vapors arose—poisonous to those who lingered near.

"Having debauched his party, he was offended by its efforts to reform and gave comfort to the enemy. Virginius killed his daughter to save her chastity; Cleveland stabbed his party to prevent its return to the paths of virtue.

"And now, still gloating over his political crimes, he invites the party to return and apologize for the contempt which it has expressed for him. Will it? Not until the principles of Jefferson are forgotten and the works of Jackson cease to inspire.

"If we are to have reorganization, Cleveland himself should accept the Presidential nomination. It would be due him; his reinstatement would be poetic justice to him and retribution to those whose Democratic conscience rebelled against his undemocratic conduct. Of course he would get no Democratic votes, but being closer to plutocracy than any Republican likely to be nominated, he might divide the enemy; and even Democrats would have what little consolation would come from receiving their disappointment in advance.

"'Of course I promised with the rest to extend the time, but you are going to make me a preferred creditor, are you not?'

"'Yes,' replied the debtor, 'I'll make you a preferred creditor. I'll tell now that you are not going to get anything; the rest won't find it out for a year.'

"Mr. Cleveland's nomination would have this advantage over the nomination of any other reorganizer; he would make the Democrats preferred creditors and tell them that they would not be benefitted by his administration.

"Mr. Cleveland's speech should be read in full. It answers a useful purpose; it explains the plan of campaign decided upon by the plutocratic element, for which the reorganizers stand. Tariff reform is to be made the chief issue, and the man who votes for McKinley the high priest of protection, are to carry on a sham battle with their companions of 1896, while the financiers make the dollar redeemable in gold, and fasten upon the country an asset currency and a branch bank system. Trusts are to be denounced in sonorous terms, while the campaign managers mortgage the party to the trust magnates in return for campaign funds. Some times imperialism will be denounced, as in Mr. Hopkins' Illinois convention; sometimes ignored, as in Mr. Cleveland's speech, but whether ignored or denounced, the secret and silent power can compel submission to the demands of the financiers and to the demands of the exploiters and the representatives of militarism.

"The fight is on between a Democracy that means Democracy, and a Clevelandism which means plutocracy. Every speech made by Cleveland shows more clearly the odiousness of the policies for which he stands. We have more to fear from those who, like Mr. Hill, indorse Mr. Cleveland's views, but conceal their real purpose in ambiguous language."

PAINE'S CELERY COMPOUND

DR. PHELPS'

Wonder - Working Medical Prescription.

Mrs. Jennie H. Steele, says: "I Feel That It Has Saved My Life."

Paine's Celery Compound is the world's great leading medicine and life saver. It has no equal for feeding exhausted nerves; it stands first as a builder of the weak and shattered nervous system.

Paine's Celery Compound has long ago proved its power as a banisher of dyspepsia, rheumatism, neuralgia, kidney disease, liver complaint, and as a purifier of the blood. Thousands of men and women, tired out, sleepless, nervous, morose, and despondent, have been given perfect health, strength, and buoyancy of spirits through the well advised use of Paine's Celery Compound. It has given a new and happy life to a vast number of people who were tired of life and suffering.

If your health is impaired; if you are burdened with any weakening or painful malady, use Paine's Celery Compound to-day; it is specially adapted for your case; it will make you well and strong. Mrs. Jennie H. Steele, Vaughns, Ga., writes thus:—

"I have suffered for ten years with what the doctors call neuralgia of the liver, and never had any relief from their medicines or anything else until I began using Paine's Celery Compound. I have taken about three bottles and have not suffered any since I first began to take it. I feel that it has saved my life, and hope all who suffer as I have will give Paine's Celery Compound a trial."

THAT'S ALL! Just the turn of a valve—could anything be easier?

Yet it gives the user of a gas stove the necessary fuel—all ready for use—in an instant! Turn the valve a little way—and you have a *slow* fire. Turn it—or its neighbor—a little further, and you have a *moderate* fire. Turn one of the valves full on—and you have a *quick* fire. And none of your fires need ever be too slow or too fast! *Turn the valve*—and you have it instantly regulated to the exact degree of heat you wish.

And when you want the fire to go out—*turn the valve*—and out it goes! Could anything be simpler—or more convenient?
